Member Benefits Frequently Asked Questions

Is it necessary that I give Community First Health Plans the name of the provider I have selected to receive my vision care services?

No. Unlike some benefit plans, it is not necessary to pre-select your provider or to give Community First Health Plans the name of your provider prior to receiving services. You need only to select your provider, make your appointment, and identify yourself as a Community First Commercial Member to the provider.

Can I get my eye examination at one location and the materials at another?

Yes. However, each provider will need to make a call to Member Services to verify your eligibility.

Do I need to obtain authorization prior to receiving services?

There are no preauthorization requirements prior to receiving services.

Can I combine this insurance with sales offered by the provider?

Although this is not disallowed, most providers prohibit the combination of insurance plans with sales or discounts.

HOW TO USE YOUR BENEFITS

Do I need to show an ID card to the provider to receive my benefits?

Your Community First Member ID card identifies you as a Member and the plan under which you are covered. We recommend that you show the provider your ID card. However, you may receive services without your ID card. Simply identify yourself as a Community First Commercial Member with personal identification, social security number, and the name of your employer. The provider will verify your eligibility and benefits.

Do my covered dependents need to have ID cards?

No. Dependents do not need to have personal ID cards to use their benefits. However, for Member convenience, a Community First Member ID card is issued to each covered Member.

Do I need to bring any forms with me to the provider?

No forms are required for services.

Under what situations do I make payment directly to the provider?

You pay the provider for the following:

- Your plan copayment
- Any charges over and above your plan allowance
- Any ophthalmic lens add-ons
- Any service or item that is listed as non-covered by your routine vision plan
